

## These local businesses have already supported local charities in some way; can you add your support?

### Giving Employee Time

A number of local companies already have a scheme whereby staff are encouraged to volunteer for a day a year while on company time. It's known as employee volunteering but here in Chelmsford we call it **Giving Employee Time** or GET, and it's a great way for companies to Give to the local community.

### GET and Give

Could you give your staff a little bit of paid time off to give to a community project?

Contact: **Chelmsford 4 Good** our charity project that works to encourage local businesses to support local charities with time, resources, equipment and skills.
