

ESSEX & SUFFOLK WATER *living water*

Essex and Suffolk Water's Essex Maintenance team kindly volunteered their time and resources to help complete the final painting of the outside and inside of the Chelmsford men's Shed. They also cleared the land next to the building and laid hard core which was kindly donated and which will accommodate table & chairs and a gazebo in the summer months. It was an amazing day with more being done than envisaged...and even the weather was kind!
